Monthly Newsletter

Volume 1 | Issue 1

Announcement

The Limb Care Foundation would like to thank everyone for their generous support over this past year. The year, 2021, was a challenge for many, but we reached some big accomplishments for the organization that would not have been possible without your financial support. Checkout this month's newsletter for a look into LCF over the past month.

Inside This Issue

PG. 2, 3- Past Events and Updates

- Shipping container is here, Imani Clinic, Amputee Soccer Event, Amputee Support Group

PG. 4- What's Coming Up

- A look ahead to 2022

We accept and distribute new and used DMEPOS

We provide grants to help patients afford their DMEPOS

We provide scholarships to students pursuing specific health fields

If you or someone you know has a new, used, or gently used durable medical equipment, prosthetic or orthotic (DMEPOS) devices that are related to limb health and would like to donate them, please send them to us and we will get your medical equipment in the hands of someone in desperate need

DONATE

Donate — Limb Care Foundation

Donations Galore!

On December 11, 2021, several volunteers came out to help us unload thousands of donated medical equipment including canes, crutches, walkers, prosthetics, and orthotic devices into our newly rented 40-foot shipping container.

Big thanks to:

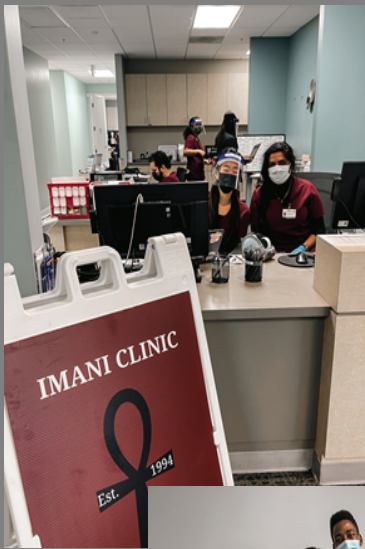

Ultra-Prosthetics and Orthotics for donating these supplies.

The Singh Family for allowing us to store the container at their Collierville Country Store.

Bob, David, Maverick, and Randeep for making the roundtrip drive to Nevada.

And all our countless families, friends, and coworkers who volunteered to help us unload these two 26-foot U-Haul's!

LCF in the Community

Over the last month, LCF was involved in several community initiatives, including:

1. **The Imani Clinic:** A UC Davis student run clinic in the Oak Park Area. LCF participated alongside other health care providers to provide donated medical equipment to those in need.
2. **Amputee Support Group:** LCF was invited to speak at the local Sacramento chapter of the Amputee Support Group where we were able to share LCF with amputees and their families and the services we offer through the organization.
3. **Amputee Soccer Clinic:** LCF participated in an amputee soccer event in Los Angeles which was hosted by Angel City Sports. This was a fun-filled event for individuals to learn about amputee soccer and other adaptive sports.

A Look Ahead at Our Goals for 2022

Educational Goal

LCF is seeking to create and distribute Limb Care Kits (LCKs) to those experiencing homelessness next year. The LCKs will contain an assortment of supplies with the purpose of preventing injury and preserving one's limbs. These supplies will include educational material on early signs of injury, skin care products, first aid supplies, socks, and much more.

Advocacy and Representation Goal

Next year, our goal is to begin the recruiting process to form our board of directors. We will be looking for dedicated members from diverse backgrounds who want to be involved in the decision and planning process of the organization for years to come.

Donations, Scholarships, and Grants (DSG) Goal

Our DSG goal is to:

1. Inventory all our donated supplies
2. Award our first scholarship to a qualified college student
3. Identify a sustainable source of funding for the organization

Strategic Partnerships Goal

Strategic Partnerships Goal

As part of LCF's strategic partnership goal, we will be seeking to establish relationships with international Non-Governmental Organizations (NGOs) that can accept supplies that have been donated to us for use in their countries.

A Look Back at 2021

During the COVID-19 pandemic, LCF grew our membership, met our fundraising goals, acquired a stockpile of donated medical devices, and put the organization on a path to success with our strategic plan.
